

SESSION 6: CURRENT RESDA PARTNER PROJECTS: CANADA

Time: Friday, October 28 9:00 am to 10:15 am.

Participants:

- *Knowledge network on mining encounters and indigenous sustainable livelihoods: cross-perspectives from the Circumpolar North and Melanesia/Australia (MinErAL Network)*, Thierry Rodon, Université Laval
- *The Toxic Legacies Project*, Arn Keeling, Memorial University
- *Mining Economies, Mining Families: Extractive Industries and Human Development in the Eastern Subarctic* Stephan Schott and Anteneh Belayneh, Carleton University
- *Tracking Change* Brenda Parlee, University of Alberta
- *Change and Economic Development in Arctic Canada (CEDAC): identifying priorities for policy, governance, and adaptation* Jackie Dawson, University of Ottawa

Description:

This session highlights work from other projects in Canada that are helping to inform the research questions asked by ReSDA. Participants will outline research that they are undertaking to extractive resource development and sustainability and discuss how it relates to ReSDA's central aims of promoting research that ensures northern communities get more benefits from resource development with fewer costs and that resource development helps ensure the long-term sustainability of these communities. Each participant will have 10 minutes to talk followed by a question and discussion period.

SESSION 7: LEARNED LESSONS FROM INTERNATIONAL LINKAGES

Time: Friday, October 28 10:30 am to 11:45 am.

Participants:

- *Arctic-FROST: Arctic FRontiers Of SusTainability: Resources, Societies, Environments and Development in the Changing North*, Andrey Petrov, University of Northern Iowa
- *Institute of Social and Economic Research (ICER) Alaska Permanent Fund and Poverty Reduction*, Matt Berman, University of Alaska, Anchorage
- *UArctic International Thematic Network group on Arctic Law*, Natalia Loukacheva, Canada Research Chair in Aboriginal Governance and Law, University of Northern British Columbia
- *Mining in the European Arctic*, Aileen Espiritu, Barents Institute, University of Tromsø
- *Resource Extraction and Sustainable Arctic Communities*, Dag Avango, Royal Institute of Technology (TBC)

Description:

This session highlights work from other regions of the Arctic that is helping to inform the research questions asked by ReSDA. Participants will outline research that they are undertaking to extractive resource development and sustainability and discuss how it relates to ReSDA's central aims of promoting research that ensures northern communities get more benefits from resource development with fewer costs and that resource development helps ensure the long-term sustainability of these communities. Each participant will have 10 minutes to talk followed by a question and discussion period.
